The After Hours Salesman

MANY concerns lose money every night by not attracting the attention of the crowds on the streets in the evening. On the other hand many other concerns prosper because they employ the after hours salesman—Electric Light.

You can readily pick out these stores on the busiest thoroughfares—their show windows pouring a brilliant flood of light upward, outward and downward, thereby adding an attraction to the goods displayed not obtainable in any other way. Few people can resist a glance at the beautiful effect—most people stop and admire it.

The proprietors of these big shops are well versed in all modern methods which make for success in developing trade. They know that the lavish use of electric light pays, and use Edison Mazda Lamps to obtain it at a minimum cost.

Our Lamp Experts will gladly assist your artistic window dressers in making your store and shop windows as attractive as the best in town.
